Saibal Ghosh

Senior Engineer – AI, Data & Automation

Agentic & generative AI · Intelligent automation and low-code · Cloud data engineering (Azure, AWS, Snowflake) · Analytics & BI

Sydney, Australia | saibal1379met@gmail.com | linkedin.com/in/saibalghosh1209 | sgh0708.github.io/Saibalmet-portfolio

PROFILE

Senior engineer in banking delivering production-ready AI agents, intelligent automation and governed data platforms, with Responsible AI and human oversight built in, from requirements to knowledge transfer. Open to full-time, contract and part-time roles.

CORE SKILLS

AI & GenAI: Copilot Studio, agent flows, Azure OpenAI, Azure AI Foundry, Amazon Bedrock Agents, prompt engineering, RAG, LLM evaluation, Responsible AI

Data Engineering: Snowflake, dbt, Microsoft Fabric, Azure Synapse, Azure Data Factory, ADLS, AWS Lambda, S3, DynamoDB, CloudWatch

Automation & Low-code: Power Apps (model-driven, canvas), Power Automate (cloud and RPA), Dataverse, ALM and managed solutions

Analytics & Tools: Power BI, DAX, data modelling, Python, SQL, C#, JavaScript, Spark, Git, Amp (AI coding agent)

EXPERIENCE

Senior Power Platform Engineer

Nov 2023 - Present

Westpac Banking Corporation, Sydney · Process and intelligent automation

- Design and deliver AI agents, Power Platform applications and Power BI reporting for regulatory, operations and business teams, from solution design to production support.
- Run ALM across DEV, TST, UAT and PROD with managed solutions; lead Responsible AI reviews, LLM evaluation and knowledge transfer to business teams.
- Speed up delivery with AI-assisted engineering, using Amp for data-model mapping, documentation and testing.

Data Analyst Lead

Aug 2022 - Nov 2023

HRS Group (Australian insurance sector), Sydney

- Led the local data transformation initiative that modernised data, reporting and insights capabilities.
- Designed Azure Data Lake and Synapse solutions, automated pipelines, executive Power BI dashboards and data quality controls.

Senior Officer, Business Intelligence

Nov 2016 - Jul 2021

Mjunction Services (B2B e-commerce and procurement)

- Built BI reports and dashboards for e-auction, sales and procurement stakeholders; designed star-schema models and SQL and Azure Data Factory ETL.
- Automated recurring MIS reports and worked with business teams to define KPIs and report requirements.

Earlier career: Operations and R&D, metals manufacturing (company confidential), Mar 2013 - Nov 2016.

SELECTED PROJECTS

AI-Assisted Application Assessment Agent – Copilot Studio agent that scores applications with a multi-stage prompt chain, evidence for every score and mandatory human review in Power Apps; audit logging, LLM evaluation and Power BI observability. · Copilot Studio · Agent flows · Power Apps · SharePoint · Power BI

Operational Resilience Platform – Apps for business impact assessment, continuity planning and incident notifications, with integrations, dataflows and data migration. · Power Apps · Dataverse · Power Automate · Dataflows · Power BI

Generative AI Claims Triage on AWS – Event-driven pipeline that triages claims into priority, summary and next actions, tracks state, routes failures and publishes metrics. · Amazon Bedrock Agents · AWS Lambda · S3 · DynamoDB · CloudWatch · IAM

Snowflake Analytics Platform – Governed ELT warehouse: ADF → ADLS → Snowpipe → RAW → STAGING → MARTS (dbt) → Power BI, with Streams & Tasks for CDC, RBAC and masking. · Snowflake · dbt · Azure Data Factory · ADLS Gen2 · Power BI

Payment File Automation – Creates, formats and validates payment files, replacing manual preparation with auditable automation. · Power Automate · Power Apps · Dataverse

ERD Mapper and AI Engineering Toolkit – Python app built with Amp that turns Power Platform solution exports into ER diagrams, plus requirements and document-review helpers. · Python · Flask · Amp · Agentic AI

CERTIFICATIONS, EDUCATION & COURSES

Microsoft Certified Associate: Power Automate RPA Developer (2025) · Fabric Analytics Engineer (2024) · Azure Data Scientist (2024) · Azure Enterprise Data Analyst (2024) · Azure Data Engineer (2024) · Power BI Data Analyst (2023)

AWS courses: Advanced Generative AI Development on AWS · Building Advanced Agentic Systems on AWS **Other:** PG Diploma in Business Management (Finance), NMIMS Global (2023) · Data Science 101, IBM
