Saibal Ghosh

Senior Engineer, Power Platform & AI · Copilot Studio · Microsoft Fabric · Power BI

Sydney, Australia | saibal1379met@gmail.com | linkedin.com/in/saibalghosh1209 | sgh0708.github.io/Saibalmet-portfolio

PROFILE

Senior engineer who builds AI agents, business apps and data platforms on the Microsoft stack. In financial services I deliver Copilot Studio agents, Power Platform solutions, Snowflake and Fabric data platforms, and Power BI reporting, with Responsible AI, audit trails and human oversight built in. Open to full-time, contract and part-time roles.

CORE SKILLS

AI & Copilot: Copilot Studio, agent flows, Azure OpenAI, Azure AI Foundry, prompt engineering, RAG, LLM evaluation, Responsible AI

Power Platform: Power Apps (model-driven, canvas), Power Automate, Dataverse, dataflows, ALM and managed solutions

Data & Analytics: Snowflake (Snowpipe, Streams & Tasks), dbt, Microsoft Fabric, Azure Synapse, Azure Data Factory, Azure Data Lake, Power BI, DAX, data modelling

Languages & Tools: Python, T-SQL, Spark, M query, SharePoint, Amp (AI coding agent)

EXPERIENCE

Senior Engineer, Power Platform

Nov 2023 - Present

Westpac Banking Corporation, Sydney

- Built an AI-assisted application assessment agent in Copilot Studio: multi-stage prompt chain, rule-based weighted scoring, mandatory human review in Power Apps, audit logging and a Power BI observability report.
- Delivered operational resilience apps (business impact assessment, business continuity planning, incident notifications) on Dataverse, with integrations, analytical dataflows, data migration and Power BI dashboards.
- Automated payment file creation and validation with Power Automate.
- Run ALM across DEV, TST, UAT and PROD with managed solutions; lead Responsible AI reviews, LLM evaluation and knowledge transfer to business teams.
- Build AI-assisted engineering tools with Amp, such as automated ERD mapping for Power Platform data models.

Data Analyst Lead

Aug 2022 - Nov 2023

HRS Group (Australian insurance sector), Sydney

- Led a data transformation initiative modernising reporting and insights infrastructure.
- Designed Azure Data Lake and Azure Synapse solutions and built automated data pipelines.
- Developed executive Power BI dashboards and introduced data governance and quality controls.

Senior Officer, Business Intelligence

Nov 2016 - Jul 2021

Mjunction Services (B2B e-commerce and procurement)

- Built BI reports and interactive dashboards for e-auction, sales and procurement stakeholders.
- Designed dimensional data models (star schemas, fact tables) and SQL and Azure Data Factory ETL; tuned queries for faster reporting.
- Automated recurring MIS reports and worked with business teams to define KPIs and report requirements.

SELECTED PROJECT

Snowflake Analytics Platform for Sales and Operations – ELT platform bringing ERP, CRM and file data into one governed Snowflake warehouse for Power BI reporting. Incremental (CDC) loads with Streams and Tasks; RBAC and dynamic masking for sensitive columns.

Architecture: Sources (ERP, CRM, CSV, APIs) → Azure Data Factory → ADLS stage → Snowpipe → Snowflake RAW → STAGING → MARTS (dbt, star schema) → Power BI

Earlier career: Operations and R&D, metals manufacturing (company confidential), Mar 2013 - Nov 2016.

CERTIFICATIONS

- Microsoft Certified: Azure Data Engineer Associate (2024)
- Microsoft Certified: Fabric Analytics Engineer Associate (2024)
- Microsoft Certified: Power Automate RPA Developer Associate (2024)
- Microsoft Certified: Power BI Data Analyst Associate (2023)
- Microsoft Certified: Azure Data Scientist Associate (2023)
- Designing and Implementing Enterprise-Scale Analytics Solutions Using Microsoft Azure and Microsoft Power BI (2025)
